Hi, my name is Joëlle de Vlam, I am 21 years old and I live in Maastricht. I am doing ICT & Media Design on Fontys in Eindhoven and I am in my second semester. I chose ICT & Media Design because I liked to make websites in my previous semester, and I think this is what I want in the future.

I got my diploma for VMBO-TL in 2019, and I did not really know what I wanted to do after, so I just went to an ROC and went to different studies, and that is how I found my previous study MBO 4 Bedrijfsadministratie.

in 2022 I could have finished this study, but sadly I did not pass 2 exams so I had to stay for 2 more months to pass them, which I did, so I got my diploma for MBO 4 Bedrijfsadministratie in February 2023. I was motivated to finish that study so I could do this study.

I actually did not know what I wanted to do after my previous study but I found out I liked making stuff on the computer, so my dad said 'Maybe ICT is something for you' that is why I went to different open days and that is how I chose this school.

So I came from scratch, I did not know anything about ICT, but I like to see that I already learned a lot, and I am motivated to learn more.

So I have a background in Bedrijfsadministratie, and I am starting to learn things about ICT & Media Design.
